## New Student Information

The College's Music Program is an ensemble-based program that provides opportunities for boys to be involved in a wide variety of instrumental and choral groups and caters for beginning through to advanced musicians. Additionally, the College provides lessons on most orchestral and popular instruments by professional instrumental teachers. Students taking lessons at the College are expected to be involved in at least one core ensemble, however students do not necessarily need to be taking lessons at the College to be involved in an ensemble.

Detailed information on lessons can be found on the College website. An enrolment can be found on the back of this page.

To enable the allocation of students to the appropriate ensemble can all new music students please provide the following information:
